

Calibrations and Calibration Certificates

DAKKS Calibration Certificates via Sub Contractors

Certificate with accreditation symbol as required by DIN EN ISO/IEC 17025 via sub contractors are issued by carefully selected partner laboratories.

The external calibration laboratories are accredited to ISO 17025, a certification that guarantees measurement accuracy.

These partner laboratories are regularly audited by National Accreditation Bodies, which guarantees that high quality standards are maintained.

Following units are served:

- Temperature
- Pressure
- Relative humidity
- Electrical conductivity in liquids

Certificates with accreditation symbol are accepted world wide and are traceable.
